March 10, 2016

Hello, my name is John William Davis and I would like serve as a member of the Architectural Control Committee for the Pont Aquarius Home Owners Association.

My family and I moved to Willis in April of 2008. We chose Point Aquarius for our home due to its appealing character and we plan to make this our retirement home. I presently serve as a member of the ACC and would like to continue to serve the community in this capacity.

As a corporate pilot, I have lived in large and small communities from West Texas to Colorado to Connecticut before moving to Point Aquarius. Some of these communities have had home owners association and some do not. I have seen how important it is to stay up with progress while maintaining the traditions of family and community; and, therefore, I feel we must retain and enforce our association's covenants and architecture controls in order to maintain our community property values.

Having served on the Board of the Directors in the past and for the past 3 years on the ACC, I feel as though I have a good sense of where our community stands and where we would like for it to go in the future. Over the years I have remodeled several homes and have become familiar with building techniques, plumbing codes and electrical codes. I feel that with my background serving on the POA Board and ACC, I can effectively continue serve on the Architectural Control Committee.

John Davis
