

ACC CANDADATE

Bio for Scott McClatchy

Howdy! I am Scott McClatchy, and I am applying for one of the vacant Architectural Control Committee positions here in Point Aquarius.

My wife and I have lived on Antares since 2004. We have 2 daughters, ages 15 and 12, who attend Willis ISD schools and they are very active in cheerleading, gymnastics, and various other sports. My wife, Melissa, is an educator who currently works at The Educational Service Center in Huntsville teaching technology integration to teachers and administrators at 1SD's throughout the Region 6 area.

I am a licensed sports medicine athletic trainer for Huntsville Memorial Hospital, and have worked as an LAT professionally since graduating Texas A&M University in 1994. My main responsibilities are to oversee and care for the medical needs of various athletes within the greater Huntsville/Willis area. In addition, I also help manage the day to day business needs of the Sports Medicine Department for HMH. I am also a licensed educator and hold a bachelor of science degree in health education. I currently teach four Principles of Health Science classes in the mornings at Willis High school.

In the past 12 years, my wife and I have bought and sold several pieces of property within this subdivision. We have worked with a custom home builder and the subdivision ACC to build our current residence. We have also submitted plans to the PA-ACC to perform various improvements and upgrades to our properties. Several of the properties we have bought here in PA have come from the Montgomery County Tax Foreclosure list, of which, have caused these properties to once again become viable to our subdivision. All of these experiences have allowed me opportunities to work with the ACC and to get a good feel for what is needed to serve our subdivision as a member of this committee. I have spent the past 4 years on the Montgomery County Fair BBQ Committee, as well as, the HMH Concussion Management Committee, and several others over the years, and understand what it takes to serve in this capacity.

I believe that each of us have a responsibility to work together and should strive to improve Point Aquarius in anyway possible. By being a resident and property owner, I feel it is my responsibility to give back to our community and would like to do so by working with the board and our residents as a member of the Architectural Control Committee.
