

## **POA BOARD CANDIDATES**

### **Bobby Light**

My name is Bobby Light and I would like to serve as a member of the Board of Directors. My wife and I moved to Point Aquarius in June 2010. I am currently the President of the Point Aquarius Property Owners Association. I am finishing my third year on the Board. I would like to be re-elected to the Board to continue improving our community so that Point Aquarius will be the community of choice on Lake Conroe.

I work for Montgomery County and have worked for the County Treasurer and the County Auditor and I am now the Finance Director of the Montgomery County Adult Probation Department. I am responsible for preparing budgets and spending the funds within the guidelines of the budgets. I will continue to see that our assessments are being spent wisely and within the budgeted guidelines.

I am looking forward to serving our community for another term.

### **Lynda Henry**

My husband and I moved to Point Aquarius in February 2011, choosing this beautiful Montgomery County community as a place to begin our search for a new home. We found and purchased our home in 2012.

I look forward to an opportunity to work with the community management. I was active in our last community in Harris County, which fought to reestablish important deed restrictions that lapsed.

It is so important to keep the community strong, and Point Aquarius management is the main ingredient. I would like to be a part of the team that communicates and facilitates a cooperative environment for all residents, with the overall objective of the desirable and sought after neighborhood on Lake Conroe.

### **Jay Thompson**

I am pleased to submit my nomination for Board Member of the Point Aquarius Property Owners Association. My wife, Janet, and I feel blessed to have settled down in PA. As a native Texan and Houstonian, I have been coming up to the Lake Conroe area for most of my life. I have seen Houston and the surrounding areas grow beyond anyone's imagination since I graduated from Westbury High School in Southwest Houston in 1978. It

truly is Houston's playground and we owe it to all residents to make sure it continues to be beautiful for all to enjoy.

Janet and I moved to Point Aquarius as our final place to call home. Between us we have 5 children from 26 to 16 years old. Almost every weekend there is something going on at the Thompson's. This summer we will host a wedding for our daughter-in-law's sister.

I attended the University of Texas and Centenary College and have a degree in Geological Engineering. I am employed by Cameron, a Houston company specializing in Oil Field equipment and services. As a product manager for Cameron, I am very familiar with many of the issues that could arise in Point Aquarius. Whether it be idea development, project management, team coordination, procurement, or mediation I have lead the efforts needed to get the job done.

Janet and I love to be on the lake pulling the skiers and tubers or just cooking out with the family. I am a car enthusiast and I can be seen when the weather is good driving my 1982 Corvette. We love to take it on road trips around the area especially during the spring and fall.

I am an avid outdoorsman and love to hunt and fish. We have a great time with the kids and their friends fishing off the dock. Hopefully with the increased lake level the fishing will be great this summer.

I look forward to serving Point Aquarius in the future and will work tirelessly to insure that it continues to be one of the most desirable developments on Lake Conroe. We have a special gem with Point Aquarius and I will be honored to continue the tremendous work that has been done.
