LABOR DAY

Labor Day is a creation of the labor movement and is dedicated to the social and economic achievements of American workers. It constitutes a yearly national tribute to the contributions workers have made to the strength, prosperity, and well-being of our country.

More than a century after the first Labor Day observance, there is still some doubt as to who first proposed the holiday.

Some records show that Peter J. McGuire, general secretary of the Brotherhood of Carpenters and Joiners and a co-founder of the American Federation of Labor, was first in suggesting a day to honor those "who from rude nature have delved and carved all the grandeur we behold."

The vital force of labor added materially to the highest standard of living and the greatest production of the world has ever known and has brought us closer to the realization of our traditional ideals of economic and political democracy. It is appropriate, therefore, that the nation pays tribute on Labor Day to the creator of so much of the nation's strength, freedom, and leadership, the American workers.

PAWC SCHOLARSHIP

The 2018-2019 PAWC Scholarship recipients received their checks at the August 2 meeting. Brett Veit will be attending Sam Houston State University majoring in Computer Science. Anya Tate will study business and criminal justice at Same Houston State University.

PAWC wishes them great success in their future endeavors.
