Re: Candidacy for ACC Board position

Hello, my name is Ron Graves and I am announcing my candidacy for the ACC Board of Directors in Point Aquarius. I am looking forward to working harmoniously with other members and within our community in an effort to continuously make Point Aquarius a great place to live.

For those that don't know me. I have lived in Point Aquarius since 2019, soon after my retirement in 2018 and have enjoyed my time here. I have a loving spouse Vee, two sons and two grandchildren, that we don't see near enough. In my spare time, I enjoy gardening, fishing, tinkering in my shed... unless my Cowboys are playing, then you can find me cheering them on in front of the patio tv.

I worked for Dow Chemical in Freeport Texas for 30 years as a certified machinist, also as a grievance and safety negotiator with the Brazoria County Machinist Union. Additionally, while living in Brazoria, Texas I served 3 years on the Brazoria County United Way board. I know what this job entails and believe I have the necessary experience to do it well and will give my all to every task at hand.

Thank you and I would appreciate your vote in the next election for the ACC Board of Directors.

Sincerely,

Ron Graves
