MARCH GARDENING TIPS

March is a great month to plant shade, fruit and nut trees. Most shrubs, perennials and herb can be planted now. Plant cool-season annual flowers, such as lobelaria, snapdragons and petunias. Warm season annual color should be planted one to two weeks after any overnight freezes. Select from a variety annuals like marigolds, impatiens, begonias, zinnia, and coleus. As we near the end of the month, watch for options to add pentas, lantana, purslane, moss rose, and angelonia. Fertilize twice a year in spring and fall. Prune spring blooming shrubs, vines, trees. Applying mulch will deter weeds. Cedar mulch also helps repel pests like mosquitoes.
