APRIL GARDENING TIPS

You don't have to have a lot of space to grow veggies. If your yard is too small for a traditional garden plot, try gardening in containers. Any kind of vessel that will hold soil will work, as long as it has drainage holes and is at least 3 gallons or larger. The bigger the container, the better! Use only quality potting mixes; avoid using soil from the garden. Grow dwarf or bush varieties to concentrate production, train plants vertically with stakes or trellises, and as in a traditional garden, the more full, direct sun the better!

Container gardens need more attention since they dry out faster and need regular additions of fertilizer to compensate for the more frequent irrigation. Add slow-release fertilizer to the potting mix and supplement with regular applications of water-soluble fertilizers.

Fertilize lawns. The ideal time to apply fertilizer is after you have mowed once or twice.

Many summer flowering and foliage plants can be set out right now. There are so many to choose from including annuals, perennials and some bulbs, corms and tubers like gladiolus, caladiums and dahlias. Examples of annual flowers include cosmos, marigold, portulaca, and zinnia. Annuals for shady spots include New Guinea impatiens, coleus, perilla, Persian shield, chicken gizards, caladiums, nicotiana, annual salvias, begonias (many type in addition to the common wax begonia), and torenia (wishbone flower).

April is also a good month to add trees and shrubs to the landscape. Resist purchasing attractive nursery plants that don't fit in with your overall landscape plan. Otherwise, the yard can become quickly overgrown, crowded or look haphazard.

THOUGHTS FOR THE DAY

Believe in yourself.

Do more of what makes you happy.

Your best teacher is your last mistake

Start each day with a positive thought.

It's not going to be easy, but it's going to be worth it.

Hope but never expect.

If you carry joy in your heart, you can heal any moment.

Everybody is a genius.

But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid.

Albert Einstein
