

My name is Ryan Burke, my wife and I, along with our four boys have been residents of this community since 2015. Two of our boys are actively serving in the military, one is in the Marines and the other in the Army. I am also a local business owner, Burke Family Plumbing, where we not only provide plumbing services, but we volunteer and serve extensively throughout the community with the Willis Little League, various events at the Legion Hall to benefit our veterans and first responders, as well as numerous other local community events such as food drives and benefits.

I have been in the plumbing industry for 24 years; Burke Family Plumbing has a service side to our business that my brother operates and specializes in residential calls, I handle our new construction portion of the business which specializes in large scale projects such as fire stations, medical facilities, school districts, churches, etc. These large-scale projects require not only the managing of my crews and other subcontractors, but require the ability to problem solve, effective communication, organization and a standard of excellence with honesty and integrity at all times. In addition to my extensive plumbing knowledge, I have a vast experience in the building industry and have built single family homes and commercial buildings throughout Montgomery County. I have served on the ACC committee for three years, and I have also served on the roads committee for the past two years and have made great strides on our road improvements and the betterment of our community.

I thank you in advance for your consideration and the opportunity for me to continue to serve Point Aquarius as a board member.

With Gratitude ~
